86. SEMINAR – TRANSPORT VISION

The seminar provided an opportunity to discuss the full LTP submission, including the bus strategy and members' participation in a workshop session on the long term vision for transport document which was being prepared in parallel with the 2nd Local Transport Plan.

Prior to the workshop session, it was explained that the long term vision for transport covered the next 20-25 years and was being developed setting out the interventions and schemes that were required to ensure that West Yorkshire's transport network was 'fit for purpose' to support economic growth in the sub region in a sustainable way that maximised accessibility for all.

Members noted that it was the intention that the vision document would be used to lobby for additional resources and would support the development of the City Region Development Plan and Northern Way Growth Strategy.

RESOLVED - That officers be thanked for their presentation.
