## What our priorities are and how we are doing

The West Yorkshire Integrated Transport Authority publishes a Corporate Plan which sets out all of our aims and objectives.

### Corporate Plan

The Authority publishes a Corporate Plan which sets out our objectives and priorities, together with information on how we propose to achieve these goals and how

### Local Transport Plan

The 15 year Local Transport Plan (LTP) for West Yorkshire covers the period 2011 to 2026. The LTP is the statutory plan for transport in West Yorkshire and is published by the West Yorkshire Integrated Transport Authority (WYITA). The Plan has, however, been developed in partnership with the five West Yorkshire District Councils - Bradford, Calderdale, Kirkstall, Leeds and Wakefield - who are the Highway Authorities in their respective areas. The Plan was developed through consultation with members of the public, transport operators, business

The plan is in the form of:-

- A 15 year Strategy for the period 2011 to 2026; and
- A first Implementation Plan for the period 2011 to 2014.

As the statutory transport strategy for West Yorkshire, the Plan serves the following purposes:-

- It is the strategic business plan for the WYITA and its partners which defines how:
  - (i) short term implementation of plans, policies and programmes can make best use of available capital and revenue/resource funding to deliver the Strategy;
  - (ii) on-going development of plans, policies and programmes will prepare interventions for delivery in future years.
- It is the strategic rationale for securing the legal powers needed for the delivery of interventions (including Transport & Work Act Orders, Compulsory Purchase Orders and a Bus Quality Contract Scheme).
- It supports the Local Development Frameworks (LDF) of each of the Districts; there will be a realistic alignment between the LDF Infrastructure Delivery Plan and the Plan.
- It supports other local plans (including Public Rights of Way Improvement Plans) and the delivery of various statutory duties.
